## DETAILED ACTION

### *Claim Status*

Claims 1-26 have been cancelled by the Applicant.

Claims 27-59 are currently pending.

### *Claim Objections*

Claims 27, 28, 30, 31, 52 and 53 are objected to because of the following informalities and appropriate correction is required.

With regard to claim 28 (line 2), the word --arrangement-- should be inserted after the word “fulcrum” in order to maintain claim language consistency.

With regard to claim 31 (line 2), the word --arrangement-- should be inserted after the word “fulcrum” in order to maintain claim language consistency.

With regard to claim 53 (line 2), the word --arrangement-- should be inserted after the word “fulcrum” in order to maintain claim language consistency.

The following phrase(s) lack clear antecedent basis within the claim(s), i.e., either the particularly recited passage fails to be properly introduced prior to its appearance at that point in the claim or the structure recited in the passage is not an inherent part of or component of the previously recited structure. The lack of antecedence as noted *infra*, is merely formal, since the claims can be understood in light of the instant specification and drawings; the antecedence informalities delineated below do not rise to the level of a rejection under 35 USC 112 2<sup>nd</sup> paragraph:

Art Unit: 2627

- (i) Claim 27 (line 10), "said first end."
- (ii) Claim 30 (line 11), "said first end."
- (iii) Claim 52 (line 21), "said first end."

Claim 57 and claim 58 are objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form.

It is noted that both claim 57 and claim 58, recite "wherein said spring member has lower rigidity than said support arm." The recitation, however, has already been set forth in each of their respective independent claims, i.e., at lines 15-16 of claim 54 (from which claim 57 depends) and at lines 15-16 of claim 52 (from which claim 58 depends).

Thus claims 57 and 58 are duplicative and must be amended or cancelled.

### ***Double Patenting***

Claim 47 is objected to under 37 CFR 1.75 as being a substantial duplicate of claim 40. When two claims in an application are duplicates or else are so close in content that they both cover the same thing, despite a slight difference in wording, it is proper after allowing one claim to object to the other as being a substantial duplicate of the allowed claim. See MPEP § 706.03(k).

***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 40 and 47 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The following phrase(s) lack clear antecedent basis within the claim(s), i.e., either the particularly recited passage fails to be properly introduced prior to its appearance at that point in the claim or the structure recited in the passage is not an inherent part of or component of the previously recited structure:

- (i) Claim 40 (line 2), "said slit part of said spring member."
- (ii) Claim 47 (line 2), "said slit part of said spring member."

***Response to Arguments***

Applicant's arguments with respect to claims 40 and 47 have been considered but are moot in view of the new ground(s) of rejection.

Claims 27-39, 41-46, and 48-59 are currently contain allowable subject matter, though prior to allowance some of the claims must be amended to obviate objections noted, *supra*.

***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
